EXPERIENCE

Software Engineer
AcceleratorApp

Feb 2022 – Present
Remote - Canada

- Daily tasks include fixing bugs, improving existing features and implementing new features - **AWS, React.js, Express.js, Kafka, Redis, PostgreSQL, MongoDB, Apollo**
- Added functionality for users to pin and unpin notes in the comment section of the application
- Added functionality for users to decide the visibility of their social links on their profiles
- Added functionality for users to export bulk form data each as a pdf file, folder zipped and uploaded to AWS S3 bucket and the url to download the zipped file sent to the user via email
- Added functionality for users to create email templates and save them for reuse

Web Developer
Metrova TechnologiesRemote - Nigeria

Jun 2020 – Jan 2022

- Led the completion of over **15 full-stack applications/WordPress solutions** for clients
- Rebuilt some projects formerly designed with WordPress, as single-page applications which **increased performance by 300%, accessibility by 20% and security by 200%**
- Worked with Product Management and other stakeholders to iterate on new features within the product

Freelancer
XircomICT

May 2019 – Jun 2020

- Built custom WordPress solutions such as themes and plugins from scratch - **HTMl, SCSS, JavaScript, PHP**
- Built custom full-stack applications for clients - **HTML, CSS, JavaScript, Bootstrap, PHP and MySQL**
- Trained IT students and company staff on Web Development

Junior Web Developer
CloudOffice

Aug 2018 – Mar 2019
In-person - Nigeria

- Cloud Office is a startup. I assisted the program developer in building CloudOffice, an ERP for businesses. I volunteered on a contract basis

EDUCATION

Federal Polytechnic Nekede
Higher National Diploma in Computer Science

Owerri, Imo State, Nigeria
Jan 2011 – Dec 2016

PROJECTS

Open-Source Project @ Tarides   *JavaScript, OCaml, GraphQL, Irmin Database*   More Details

- Combined Irmin-Indexeddb and Irmin-Server to produce an offline-first web application with fast and efficient synchronization
- Combined Dream's GraphQL and Irmin-GraphQL to build a mini-github application that fetches and displays a GitHub repository's information such as name, author, description and README.md file
- Added functionality for Irmin (a primarily Unix-based application) to work in the browser using WebSocket

Company Website for Loctech IT Solutions   *Gatsby.js, Strapi.js*   Website

- Led two other developers to build the company website with an eLearning system integrated into it

Outreachy Internship @ OCaml Labs   *JavaScript, Next.js, OCaml*   Source Code

- Designed a GraphQL API to access all OCaml packages with features like sorting, searching, filtering and pagination, making it easier to query all the packages

An ERP for Loctech IT Solutions   *React.js, Express.js, MongoDB, PostgreSQL*   Application

- Led the completion of an ERP application using React.js, Material-UI, Node.js, Express.js, MongoDB and PostgreSQL

CERTIFICATIONS

- Build Web Apps With ReactJS by OpenClassrooms
- Go Full-Stack With Node.js, Express, and MongoDB by OpenClassrooms
- Learn about Agile project management and SCRUM by OpenClassrooms
- Front End Course by Andela
